Foreword

On behalf of Arnum Holsteins it is a pleasure to invite you to the dispersal of this top production herd.

For over 40 years, Peter and Wilma have dedicated their lives to the dairy industry. Through their strong interest in breeding top quality cows, over the years they were able to realise their vision of attaining a remarkable 100% top quality herd. In recognition of their achievements and dedication to the industry Peter and Wilma rightfully gained the award of Master Breeders. A life time of hard work and a love of what they do is testament to their show quality large frame cow herd that has been premium bred for its high yielding produce. Due to retirement of this farming family, this industry award acknowledged herd is now available for the astute buyer.
